

Science Inspired Beauty™

BoniceL is the first science-backed, probiotic-derived personal care ingredient that has been shown to significantly improve the appearance of seven common signs of aging.

BoniceL is the trademarked name for the supernatant produced during the fermentation of GanedenBC³⁰ (*Bacillus coagulans* GBI-30. 6086), Ganeden Biotech's popular shelf-stable probiotic ingredient, and is optimized to contain the perfect combination of naturally derived metabolites.

USE

- Incorporates easily into topical formulations
- Use level - 5%
- For external use only
